

Shuaib Ahmed

Senior Frontend Engineer | Angular & TypeScript | Frontend Performance & Architecture

+91 8077946835 | developershuaib@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 7.5+ years building enterprise SaaS, fintech, and web applications with Angular and TypeScript. At Qyrus, improved initial application load time by 15% and reduced bundle footprint by 8.99% (89 MB -> 81 MB) for an AI-testing SaaS platform serving 90K+ monthly active users across 25+ enterprise customers. Deep experience in Angular 13-22, NgRx/RxJS, OAuth2/OIDC, frontend performance, accessible UI architecture, reusable component systems, and SPA modernization.

CORE SKILLS

Frontend: Angular 13-22, TypeScript, JavaScript, NgRx, RxJS, Angular Material, HTML5, CSS/SCSS, Bootstrap

Architecture & Web: SPA Architecture, Frontend Performance, Lazy Loading / Code Splitting, Accessibility, Responsive Design, OAuth2/OIDC, REST APIs, Feature Flags, A/B Testing

Testing & Engineering: Jasmine, Karma, Git, GitHub, JIRA, LaunchDarkly, LogRocket, Keycloak

AI-Assisted Engineering: Codex, Claude - feature implementation, test generation, debugging/bug fixing, code review workflows

Additional Exposure: React.js, Node.js, Express.js

PROFESSIONAL EXPERIENCE

Senior Platform Engineer - Frontend / Angular

May 2023 - Present

Qyrus India Pvt Ltd | Bangalore

- Built and evolved Angular/TypeScript SPAs for an AI-testing SaaS platform serving 90K+ MAU across 25+ enterprise customers, owning reusable frontend patterns and production UI performance.
- Redesigned state and asynchronous data flows with NgRx/RxJS and route-level loading strategies, reducing initial application load time by 15%.
- Reduced application bundle footprint by 8.99% (89 MB -> 81 MB) through lazy loading and code splitting, lowering browser download and parse cost.
- Applied structured branching and pull-request practices across a 25+ contributor GitHub codebase, reducing merge-conflict incidents by 20%.
- Delivered responsive, cross-browser, accessible Angular components from Figma designs and supported production troubleshooting across the platform.
- Use Codex and Claude in day-to-day development to implement features, generate tests, diagnose and fix bugs, and review code through reusable AI skills.

Senior Web Developer

May 2019 - May 2023

Epik Solutions Pvt Ltd (Epikso) | Gurgaon

- Built and maintained responsive Angular interfaces across 5+ applications using Bootstrap and SCSS.
- Built a 20+ component reusable Angular UI library used across five applications, reducing implementation time for new UI features by 35% while maintaining cross-browser compatibility.
- Expanded Jasmine/Karma test coverage around critical UI and API flows, increasing measured coverage by 30% and improving regression protection.
- Integrated REST APIs and built interactive data-visualization dashboards with ApexCharts and ngx-charts for real-time user insights.

Web Developer Intern

Nov 2018 - May 2019

MyLoanCare (now MoneyWide)

- Supported frontend feature development, REST API integration, responsive layout improvements, and UI debugging using HTML5, CSS, and JavaScript.

EDUCATION & CERTIFICATION

Bachelor of Technology - Electrical & Electronics Engineering | Krishna Institute of Engineering and Technology, Ghaziabad | 2017

Angular Testing Masterclass | [Credential](#)

ACHIEVEMENTS

Awarded with 'Zero Defect Warrior' for defect free coding in Qyrus
